### SWORN AFFIDAVIT OF FACT – Attachment 4

**TO:** Tony Blinn, General Secretary – IFBB Professional League

**RE:** Doping Control Procedural Breach – 2025 Northwest Natural Pro

**DATE:** January 17, 2026

I, Empress Dr. Yasha The Ancient 1 (IFBB PRO Member 13945), being a Doctor of Health Science (DHSc) in Exercise Leadership, do hereby declare the following under penalty of the rules and regulations of the IFBB Professional League:

- 1. Direct Observation of Conduct:** During the doping control process for the Women's Physique Division on November 9, 2025, I was in the immediate proximity of the competitor, [REDACTED].
- 2. Visual Identification of Device:** I personally observed the athlete utilize a personal, non-sterile "Shewee" (female urination device) to provide her sample into the collection cup.
- 3. Physical Evidence of Breach:** I witnessed the athlete standing upright and facing the toilet to provide the sample. As a health science professional, I assert that this posture—physically impossible for a female without a delivery aid—confirms that the mandatory "Direct Observation" protocol was obstructed.
- 4. Failure of Official Oversight:** The promoter, Erin Ribic, and a female staff member were present. The staff member verbally validated the breach by stating she "uses a Shewee as well," rather than enforcing the protocol that forbids unauthorized, athlete-provided equipment.
- 5. Technical Conclusion:** The use of this device masked the urethral area, making it impossible for the chaperone to verify the biological origin of the sample. This constitutes a technical failure in the "Chain of Custody" and invalidates the "Natural" status of the sample.

6. **Demand for Documentary Evidence:** I formally request that the IFBB Professional League compel the production of the **Doping Control Command Log** and **Chaperone Report** from Ribic Productions for this specific athlete. Under standard Health Science audit practices, these records are essential to verify if the unauthorized device and the deviation in posture were documented by the event officials.

**I declare that the above is true and correct to the best of my knowledge.**

Respectfully,
